

Beaver Premium Quarter-Turn Electric Valve Actuator

A high-performance electric actuator used to automate quarter-turn valves.

T42

Beaver T42 Premium Quarter-Turn Electric Valve Actuator

T42 Premium Electric Valve

The Beaver T42 Quarter-Turn Electric Actuator is a premium actuator robustly designed for on/off and modulating applications in industrial environments.

The actuator has a squirrel cage induction motor capable of producing a high starting torque. Its torque output range is 60–6000Nm.

This actuator has a manual override function, which automatically disengages once it's electrically operated.

This premium electric actuator is available with a visual position indicator, local control unit with LED indicator or LCD display, fail-safe function battery pack, and Profibus/Modbus/CAN bus function.

KEY FEATURES

- Hard-anodised aluminium housing and external epoxy coating ensure durability in rigorous environments
- Thermal protection prevents damage from overheating.
- Built-in torque and limit switches allow for remote indication.
- Mounting base is compliant with ISO 5211.
- Permanently lubricated for easy maintenance.
- Self-locking gear mechanism prevents reverse movement from the valve.

Tables 1–2. T42 Specifications

Standard Specifications	
Brand	Beaver
Model	T42 (Premium)
Output torque	60–6000Nm
Duty cycle (on/off)	S2: 10–30 min S4: 20–50%
Duty cycle (modulating)	S4:30–50%, 300~1200 start/hour
Main power supply	Standard: 1 phase/220 VAC and 3 phase/380 VAC Optional: 1 phase/110 VAC, 3 phase/220 VAC or 440 VAC, 24 VAC/24 VDC
Control power supply	110/220 VAC or 24 VDC
Stall protection/ set temperature	Built-in thermal protection Open: 150°C Close: 97°C
Anti-vibration	XYZ 10 g, 0.2–34 Hz, 30 minutes
Ambient humidity	90% RH Max (non-condensing)
Ambient temperature	-20°C to +70°C
Motor	Squirrel caged induction motor

Standard Specifications	
Limit switches	2 x SPDT, 10A@250VAC at open/closed position Except NTQ-060/100: 1 x SPDT, 10A@250VAC at open/closed position
Torque switches	1 x SPDT 10A@250VAC at open/closed position (except NTQ-060/100)
Mechanical stopper	1 for each travel end (open and closed), external and adjustable
Position indicator	Continuous mechanical indicator with arrow
Self-locking	Provided by double worm gear (no brake)
Manual override	De-clutchable
Space heater	5W (110/220 VAC) for anti-condensation
Cable entry	2 x PF ¾"
Lubrication	EP type grease
Terminal block	Screw and lever push type (spring loaded)
Enclosure	Standard: Weather-proof IP67 (standard), NEMA 4 & 6 Option: IP68 or EExdIIIBT6

We're here to help

We know it's important for you to talk to someone who knows their stuff. So if you have technical questions or need help choosing the right products, talk to our team. We'll walk you through our proven problem solving process.

1. Tell us what you need.

Tell us about your project. What do you want to achieve? What problems do you need to overcome? Let's work back from there.

2. Choose the right solution.

Weigh up the options. We'll do the analysis, discuss the options with you, and make a recommendation—the choice we'd make in your shoes.

3. Get the job done.

Complete your project, with the right products, on time and to spec. We've got your back all the way, with support during installation and commissioning.

Tap into our expertise and talk to our friendly, expert team.
